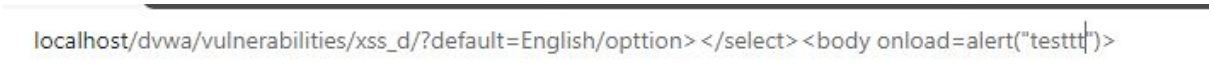
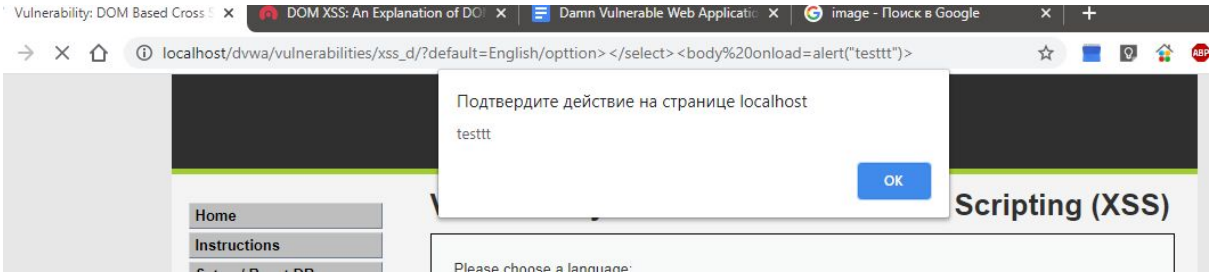
Security Level Medium

3. В URL вставляю

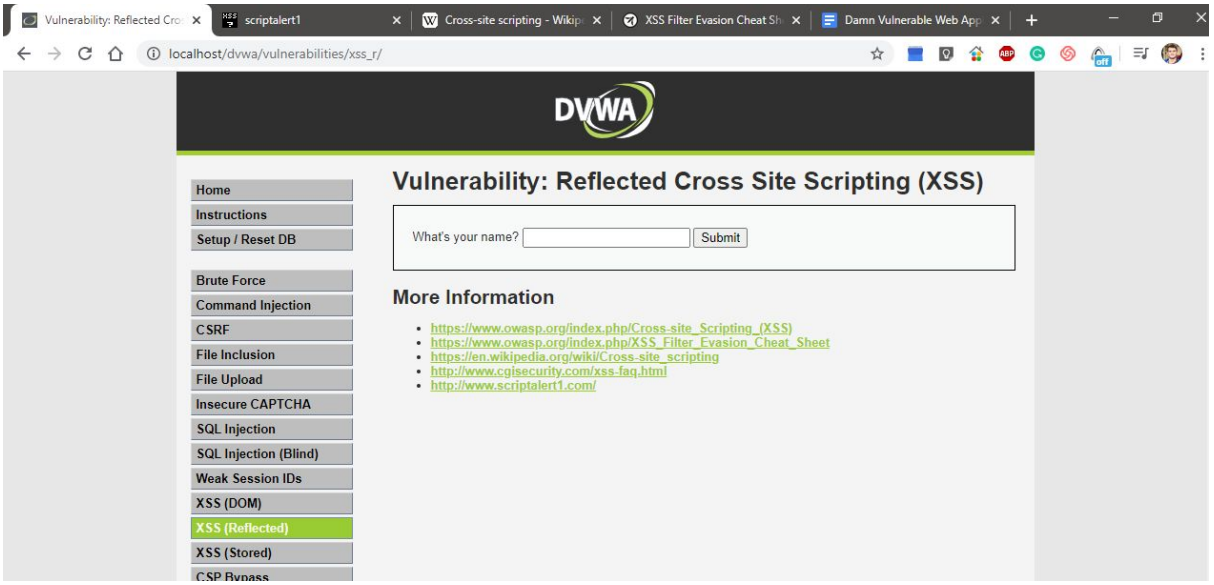


Результат

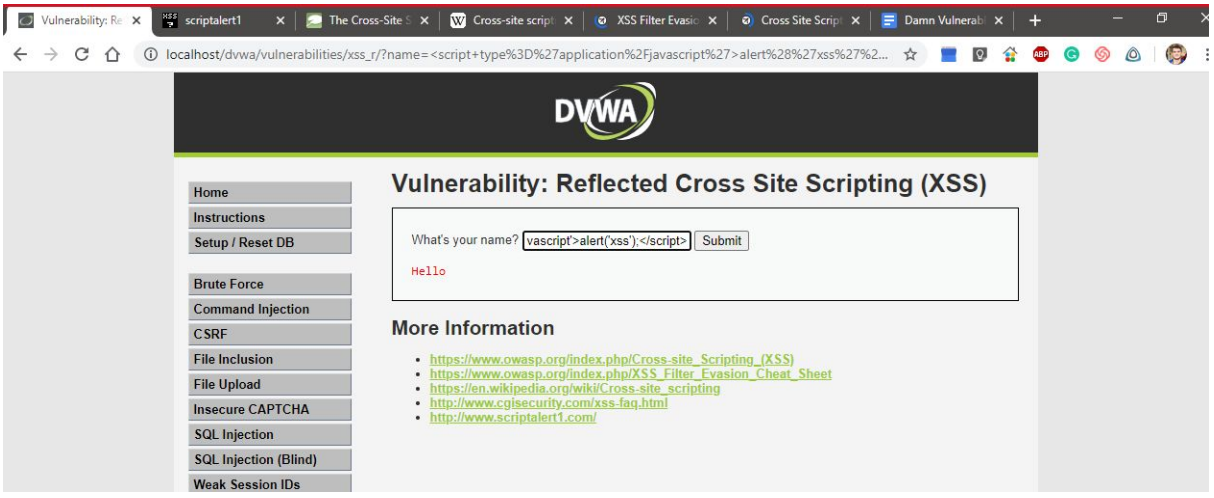


Задание Reflected Cross Site Scripting (XSS)

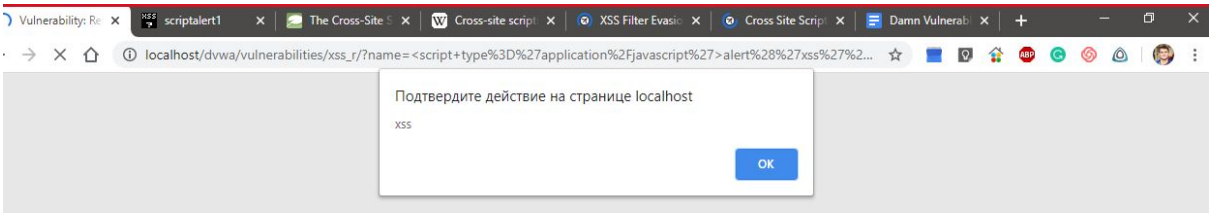
1. Генерирую всплывающие окно с информацией.Проверка базового эксплоита.



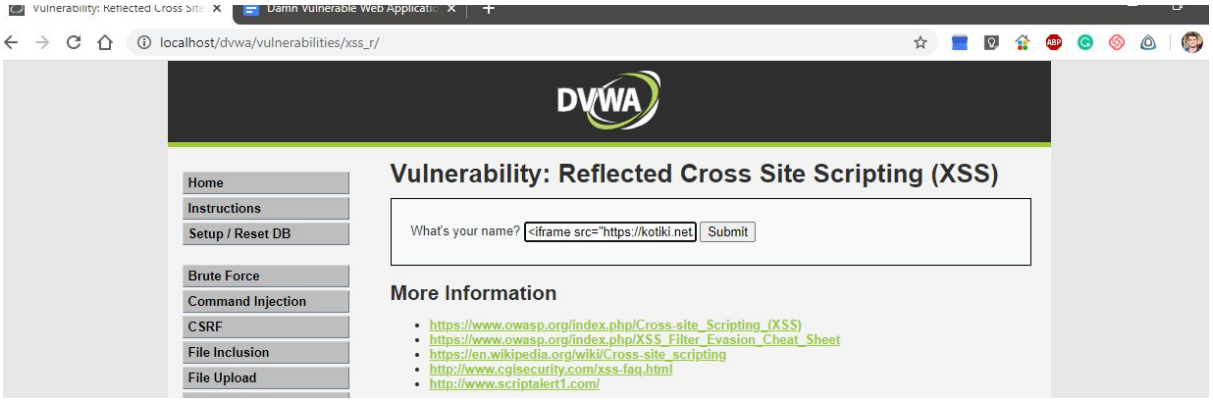
Вставляю “<script type='application/javascript'>alert('xss');</script”



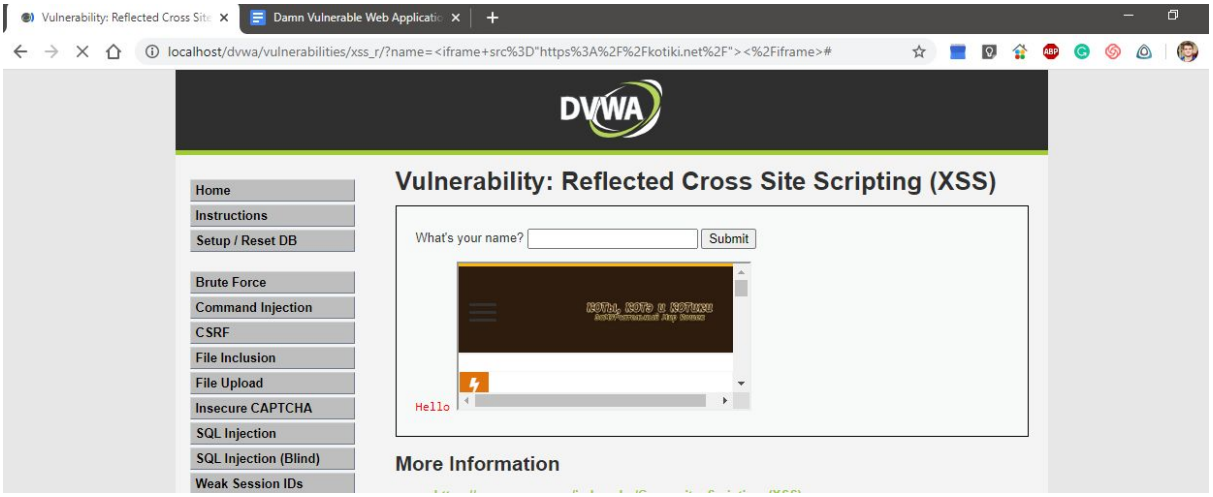
Результат



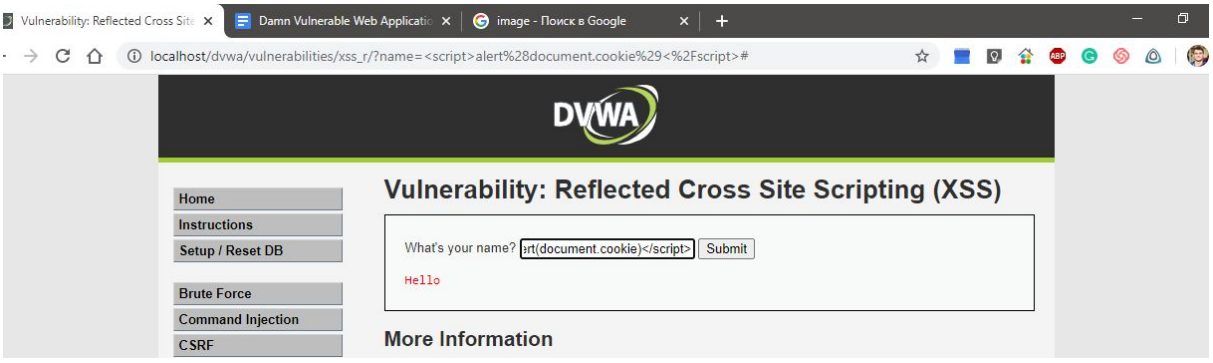
Проверка IFRAME эксплоита. Вставляю в поле <iframe src="https://kotiki.net/"></iframe>



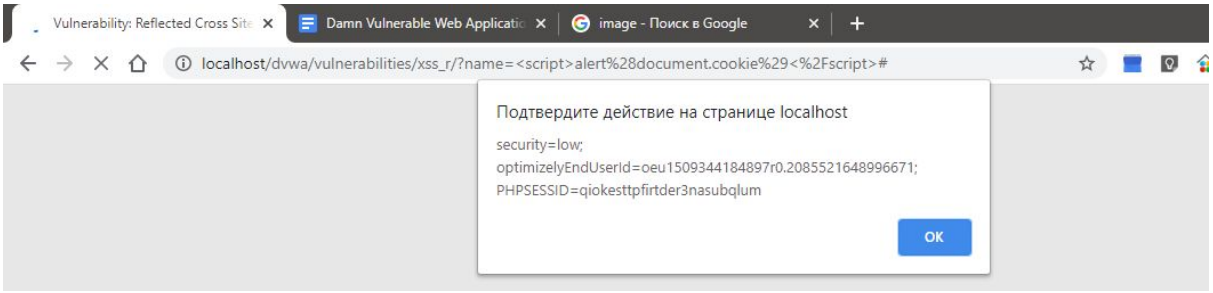
Результат



Проверка COOKIE эксплоита. Вставляю в поле - <script>alert(document.cookie)</script>

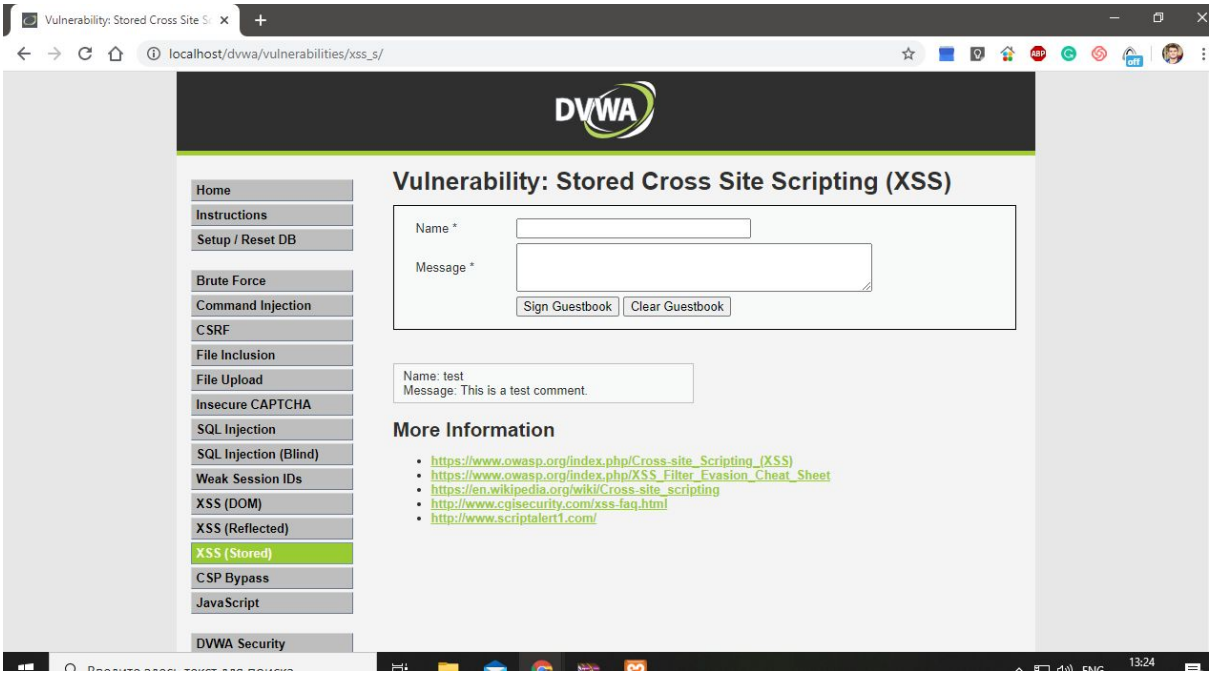


Результат

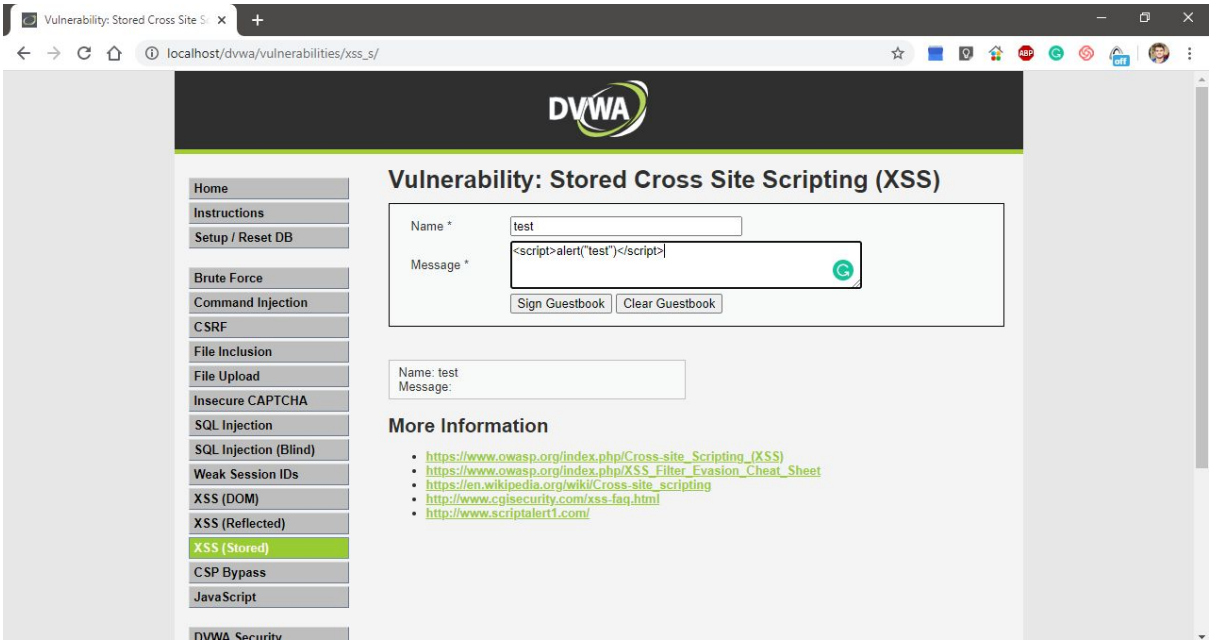


Задание Stored Cross Site Scripting (XSS)

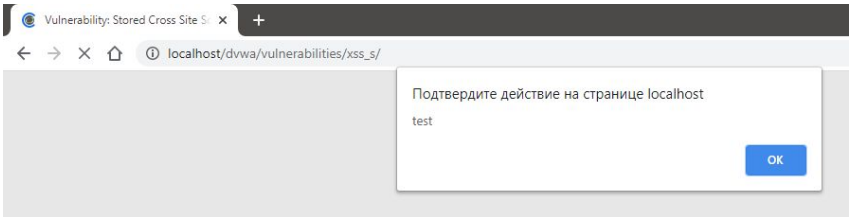
1. Проверка базового эксплоита.

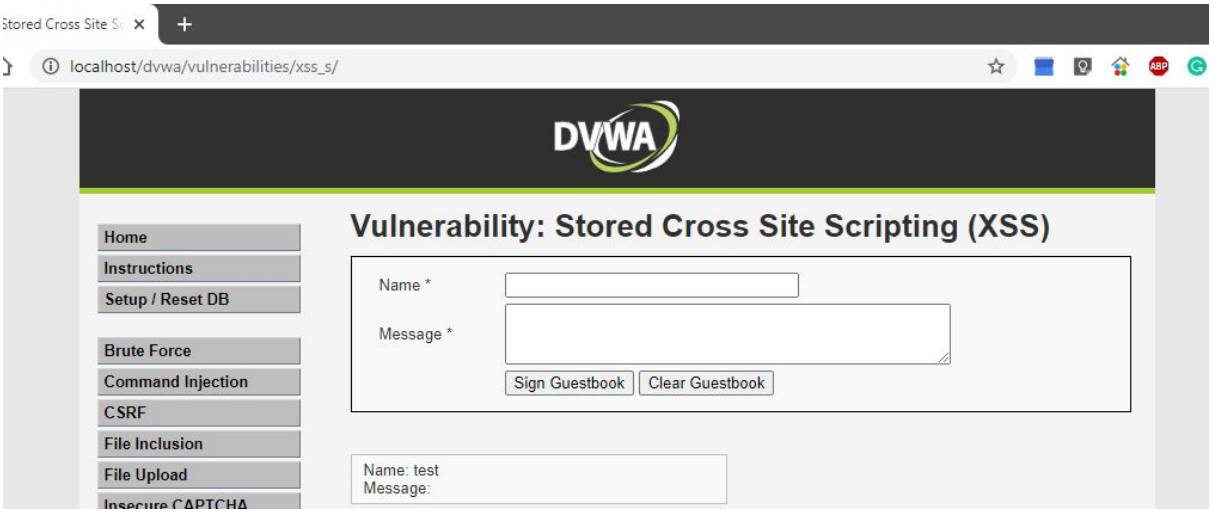


Вставляю в поле “Name” - test, а в поле “Message” -<script>alert("test")</script>



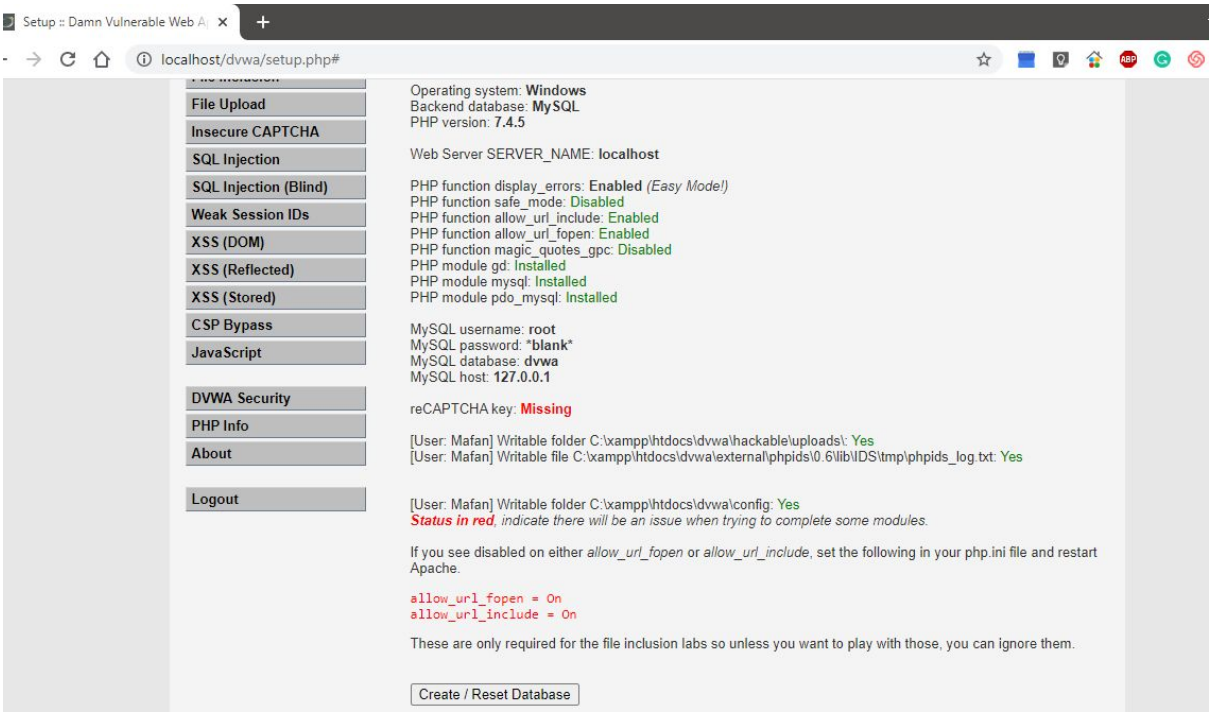
Результат



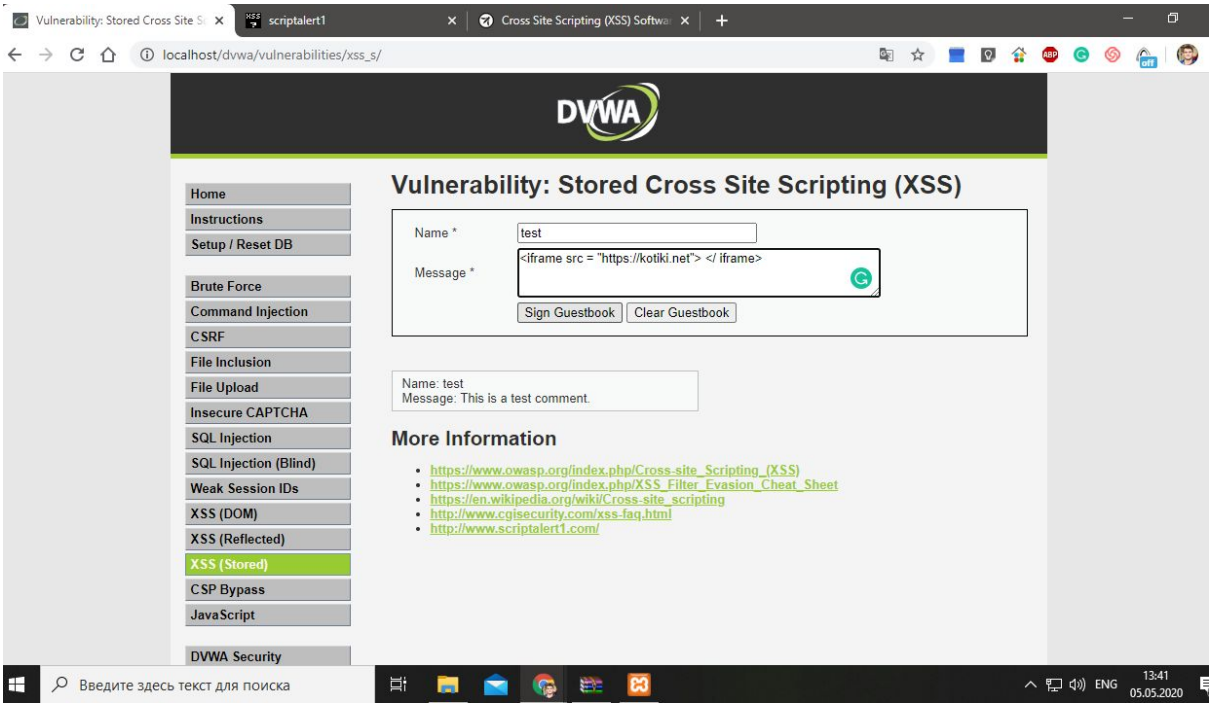


2. Проверка IFRAME эксплоита.

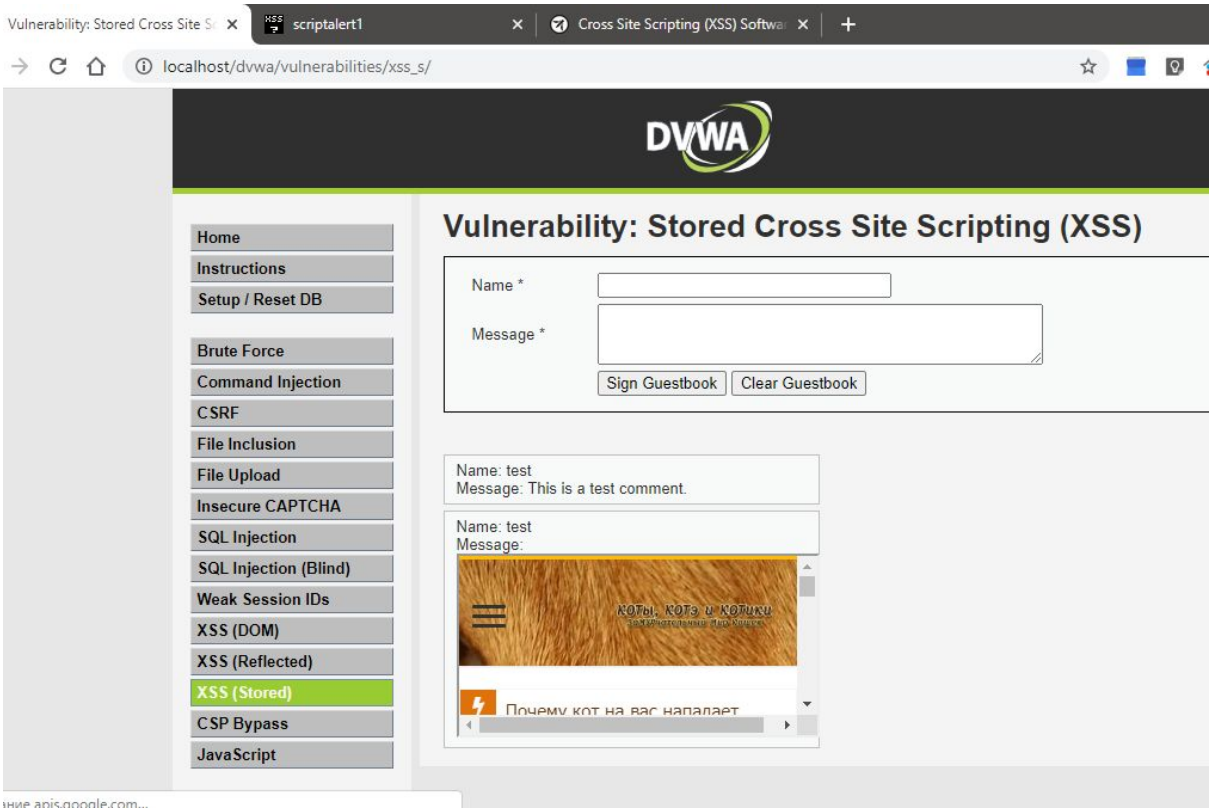
Прежде чем проверять дальше, я сбрасываю БД, потому что будет отображаться каждый эксплойт.



Далее провожу проверку. Вставляю в поле “Name” - test, а в поле “Message” -<iframe src="https://kotiki.net/"></iframe>

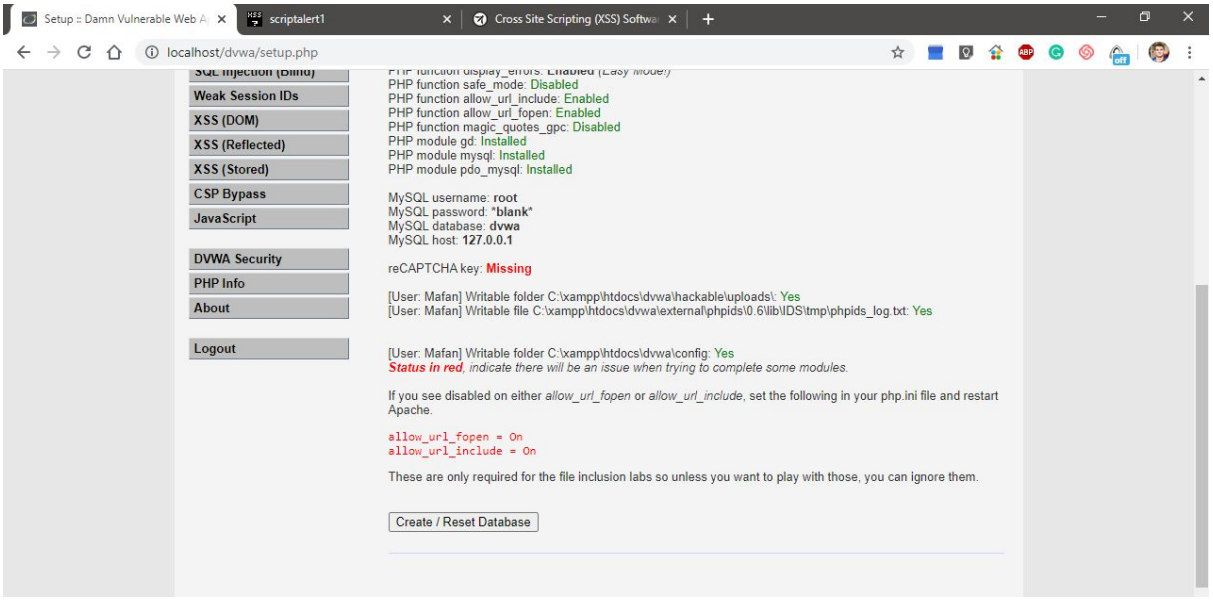


Результат

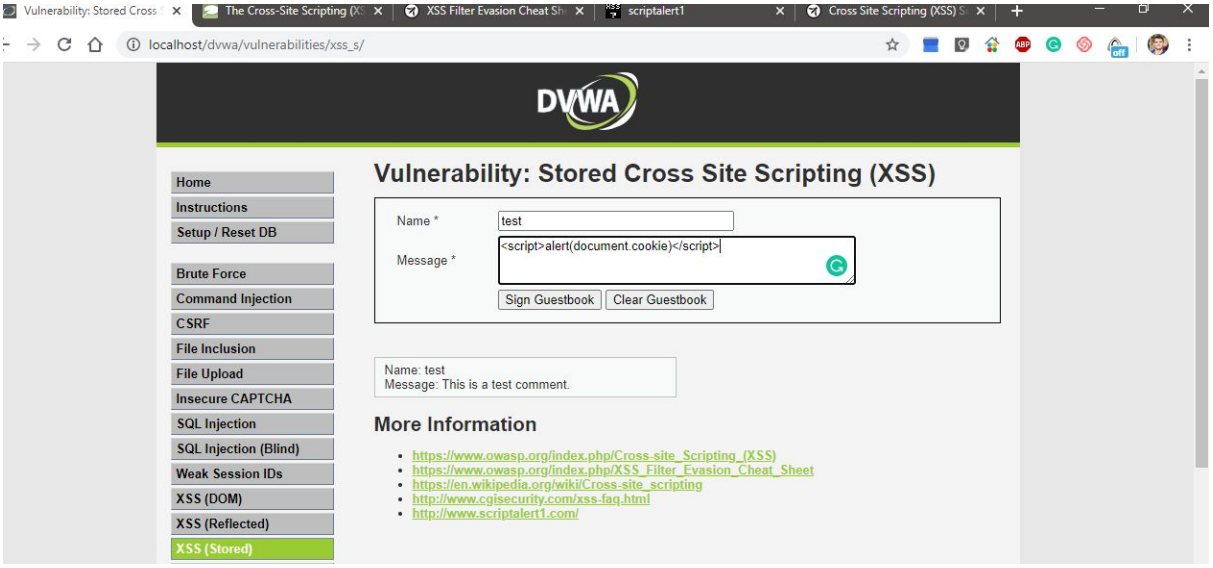


3. Проверка COOKIE эксплоита.

a. Прежде чем проверять дальше, я сбрасываю БД, потому что будет отображаться каждый эксплойт.



b. Далее провожу проверку. Вставляю в поле “Name” - test, а в поле “Message” -<script>alert(document.cookie)</script>



Результат
